

How Rev-Trac Helped a Global 500 Retail Company Overcome SAP change challenges

Introduction

This case study of a large enterprise consumer products company is based on a September 2016 survey of Rev-Trac customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

“Getting Rev-Trac in place took only several weeks and the robustness of the application is highly appreciated.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Rev-Trac — an SAP DevOps platform:

- Used Rev-Trac to replace the following systems:
 - An in-house developed system

Use Case

Goals

The goals of the retailer’s SAP change control automation project were to assist in:

- Implementing a Release Management strategy
- Improve production system stability
- Reduce the overall costs of managing SAP change

Solution

The Rev-Trac automated SAP DevOps platform was selected ahead of SAP Solution Manager ChaRM and several other third-party products.

The key features and functionalities of Rev-Trac that the surveyed company uses:

- Integrated the following ALM tools into their Rev-Trac change management process:
 - Code Profiler(Virtual Forge) & FrontRange(Heat Software)

Results

The surveyed company achieved the following results with Rev-Trac:

- Improved each of these areas with Rev-Trac by the corresponding degree:
 - Reduced manual effort: 50% – 69%
 - Reduced time on audit tasks: 20% – 49%
 - Increased volume of change: 20% – 49%
 - Reduced production errors: 70% – 90%
 - Reduced manual retrofit effort: 20% – 49%
- Has simplified or improved the managing of change throughout by 50% – 69% with Rev-Trac.
- Found Rev-Trac to be in productive use within 1-3 months.
- Estimates that Rev-Trac change management automation has eliminated their level of manual effort and improved efficiency by 50% – 69%.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Consumer Products
